**PLEASE TAKE NOTICE**, the State of Arizona, ex. Rel, Stephen A. Owens, Director, Arizona Department of Environmental Quality ("ADEQ") will begin performance of a groundwater feasibility study (A.R.S. § 49-287.03) at the **Broadway-Pantano Water Quality Assurance Revolving Fund Site** in Tucson. The Site is bounded approximately by Speedway Boulevard to the north, Pantano Wash to the east, Calle Madero (south of Broadway Boulevard) to the south, and Sahuara Avenue (west of Wilmot Road) to the west.

The purpose of this study is to examine appropriate measures for cleanup of the Site. The actual extent of the contamination may differ; therefore, the geographic boundaries may change as newer information becomes available.

ADEQ has developed a fact sheet as required by A.R.S. § 49-289.02, a scope of work for the groundwater feasibility study for a proposed remedial action study and a community involvement plan for the Site. ADEQ may authorize another party to implement the feasibility study. The site score is 57 out of 120.
